**Complainant:**

Professional Engineers and Professional  
Surveyors

**Case #2010-25**

**Respondent:**

Steve Abrams  
508 North Valentine Street  
Little Rock, AR 72205

**DISMISSAL ORDER**

The Arkansas Board of Licensure for Professional Engineers and Professional Surveyors (hereinafter "the Board") registered a complaint on May 10, 2010, charging Steve Abrams (unlicensed, hereinafter "Abrams") with practicing or offering to practice engineering in Arkansas without licensure, in violation of Arkansas Code Annotated §17-30-30-102(a).

**FINDINGS OF FACT**

1. Darrell Madding (hereinafter "Madding") was under an Administrative Order from the Arkansas Department of Environmental Quality to prepare a workplan and perform an environmental site investigation.
2. Madding retained Environmental Services Group, Inc to prepare the workplan and conduct the site investigation, and report the results.
3. At the time of the alleged violation, Abrams was an employee of Environmental Services Group, Inc, but was not an owner or officer of the company, and was not responsible for the company's activities.

4. Abrams prepared the workplan and site investigation report, at least in part, and conducted the actual field investigation.

5. Michael Bolin (AR-PE #4197) has accepted professional responsibility for the workplan and site investigation report.

6. The conduct of the field investigation amounted to technician duties, and not professional practice.

7. Abrams claims to be an "Environmental Scientist" where his name appears in the documents associated with the case, and there is no evidence that he represented himself to be an engineer.

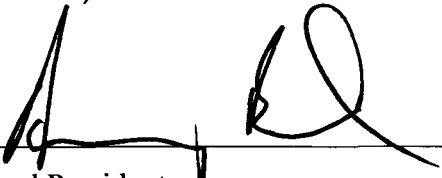

**CONCLUSIONS OF LAW**

Upon review of the evidence in its possession, the Board finds the conduct by Abrams described in the Findings of Fact does not warrant further investigation or other action.

**ORDER**

Based on these Findings and Conclusions, the complaint against Abrams is dismissed.
