

**BEFORE THE ARKANSAS BOARD OF REGISTRATION FOR
PROFESSIONAL ENGINEERS AND LAND SURVEYORS**

In the matter of Heritage Building Systems, Inc, and Case #2008-08:

COMPLAINT

The Arkansas Board of Registration for Professional Engineers and Land Surveyors (hereinafter "the Board") received a complaint on March 25, 2008, charging Heritage Building Systems, Inc (non-registrant, hereinafter referred to as "Heritage") with offering engineering services without a valid Certificate of Authorization, in violation of Arkansas Code Annotated §17-30-303.

FINDINGS OF FACT

1. Heritage sells metal building packages. These packages are produced by various manufacturers to meet certain building codes and specifications.
2. Heritage has admitted preparing drawings to facilitate the use of its products, and that an engineer's seal is sometimes required for those drawings before its products can be installed.
3. Where an engineer's seal is required, Heritage has contracted with local registered engineers for that service.

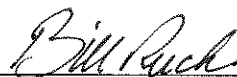

CONCLUSIONS OF LAW

Upon review of the evidence in its possession, the Board finds that Heritage's actions as described in the Findings of Fact do not constitute a violation of the statutes or rules governing the Arkansas Board of Registration for Professional Engineers and Land Surveyors.

ORDER

Based on these findings, the complaint against Heritage is dismissed without further action by the Board.

SO ORDERED this 9th day of September, 2008
